Claims 10, 11, 12 and 17-20 are allowed.

Claims 2-5 and 26 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 13, 15 and 25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Brewer in view of Rich.

Brewer discloses a device comprising activity bags positioned along a frame elastic members and handgrips.

Rich discloses a seat member having a backrest wherein the backrest has attachment points for attaching resistance members.

Given the teaching of Rich of providing attachment members in conjunction with a back rest member on a seat member, the examiner notes that it would have been obvious to one of ordinary skill in the art to provide a back member with attachment points on the device of Brewer for the purpose of providing elastic resistance at an upper region of the body of the user of Brewer.

Applicants attempt to define the positions of the activity bags of the applicants device in terms of a user's physical characteristics is noted. The applicant must however define his invention in view of the physical characteristics of the invention not the user.

Art Unit: 3764

In regard to claim 15 the examiner notes that as broadly claimed it would have been obvious to manufacture the device of Brewer to foldable having means by which to make his device more portable.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
